

Hitch

BYRNE

Hitch®

With all the technology and devices out there, you need to be able to power up anywhere. Hitch® is here to make it happen. This portable charger allows you to charge up to three devices—without a wall or outlet in sight. Missing the conversation because your phone has you tethered to the wall? Rearranging furniture to get to an outlet? Now you can collaborate, share new ideas, work wherever you feel inspired, and power your devices—all at the same time.
